

Faculty of Science

POSTGRADUATE QUALIFICATIONS

The Faculty offers a wide range of qualifications at postgraduate level, providing exciting opportunities for further study and research. The following postgraduate qualifications are offered:

LEVEL	QUALIFICATION/ DISCIPLINE
BSc(Honours)	Archaeology
	Archaeology and Environmental Science
	Astrophysics and Space Science
	Atmospheric Science
	Biological Sciences
	Marine Biology
	Chemistry
	Computer Science
	Information Technology
	Environmental and Geographical Science
	Geology
	Geochemistry
	Mathematics
	Applied Mathematics
	Mathematics of Computer Science
	Molecular and Cell Biology
	Ocean and Atmosphere Science
	Physics
	Statistical Sciences
Statistical Sciences for Actuaries	
Master's <i>By coursework and minor dissertation</i>	Astrophysics and Space Science
	Applied Marine Science
	Conservation Biology
	Computer Science
	Information Technology
	Environment, Society and Sustainability
	Climate Change and Sustainable Development
	Ocean and Climate Dynamics
	Operational Research
	Statistical Sciences
For all; a minor dissertation on an appropriate topic approved by the relevant department	
Master's <i>By dissertation only</i>	On an appropriate topic approved by the relevant department
PhD <i>By thesis only</i>	On an appropriate topic approved by the relevant department
